

## CUT UP.

THE MEDICAL FACULTY DISSECT  
AND DISCUSS ANSCHLAG.

The Theory of His Insanity Entirely Exploded—His Brain Normal in Size and Condition—A Subject for the Medical College.

When Anschlag was placed on trial before Judge Cheney for his brutal butchery of the Hiltchicks, his attorneys set up the plea of insanity, in support of which an affidavit was filed to the effect that some years previous he had fallen from a ladder a distance of 25 feet, sustaining injuries to his head which confined him to his bed several months, and from which he became of unsound mind, frequently suffering pains up to that time. Judge Cheney at once suspended the trial on the charge of murder and impelled a jury to inquire into his mental condition. This jury, after a very full investigation, returned a verdict that the prisoner was of sound mind and responsible for his acts, when the trial was resumed, and resulted in his speedy conviction for murder in the first degree. Despite this inquiry, there were many persons who believed that Anschlag was insane, and that he was a victim of a crazy man, and that, instead of being hanged, he should be locked up in an insane asylum. Nothing could shake this belief on the part of those who were well-informed, but, on the contrary, when, some months later, a quick phenologist by the name of Fritz examined the murderer's head and declared that he was of unsound mind, it only strengthened the opinion.

The authorities have never believed that Anschlag was so crazy that he should not be held responsible, but were more inclined to the opinion that he was merely a thick-headed brute, who murdered the Hiltchicks for their property, and did not have sense to understand that two people could not drop out of sight in a thickly-settled neighborhood, where they were well-known and respected, without creating such a stir that an investigation would be had, his very improbable story to the contrary notwithstanding.

To settle the insanity point, as far as possible, it had been decided to hold a post mortem as soon after the execution as it could be done, and all the arrangements had been made accordingly. Although he slipped through the hands of the jailers, the murderer did not escape the doctors, and at 9 o'clock yesterday morning 15 or 20 medical men and several medical women assembled at Orr & Sute's to witness the operation. Coroner Meredith having set that hour so that they would not be disturbed. The autopsy was conducted by Drs. Cohn and Macdonald, and among those present were the following: Dr. P. D. Hunkins, Dr. J. H. Wiley, Dr. J. R. Brammer, Dr. R. Merrick, Dr. V. M. Schultz, Dr. N. H. Morrison, Dr. E. H. Smith, Dr. J. R. Colburn, Dr. L. M. Powers, Dr. G. L. Cole, Dr. McCarthy, Mrs. Dr. Lummis, Mrs. Dr. Dorsey and two or three other ladies and students, all of whom appeared deeply interested in the proceedings.

The scalp was first cut across and turned forward over the upper part of the face and back toward the neck, exposing the skull, which demonstrated beyond any doubt that Anschlag had never received any severe injury on the head, as there were no adhesions of the scalp to the skull. The skull-cap was then removed, and the brain exposed to view. This appeared perfectly normal, but it was carefully removed by the doctors, washed and placed on a pair of scales, when it was found to weigh 46½ ounces, a little under the average for an adult male of Anschlag's size. When further examined, two small adhesions were found, but they were not enough to cause any trouble, in fact, not more than are frequently found, and are not considered of any importance. In all other respects the brain was perfectly normal and healthy. The examination of the other organs developed nothing beyond the fact that the murderer was in good health at the time of his death.

Coroner Meredith had determined to hold the inquest immediately after the post mortem, but owing to the absence of Mr. Richardson, the death-watch who was with Anschlag at the time he took the poison, who had gone to Stockton to take an insane man to the asylum, it was postponed until this morning at 10 o'clock. As soon as this is over, the body will be taken to the medical college, where it will be dissected for the benefit of the students. There were a large number of visitors yesterday to see the corpse, but all were refused admission to the room where it lay, which course will also be pursued today.

## "HODMAN" ALL RIGHT.

In the dispatches printed in this paper yesterday from Los Angeles, says the San Francisco Chronicle of Thursday, it was stated that Butcher Anschlag might be guilty of another murder, as a friend of his, with whom he had traveled from London, disappeared from the train at Oakland. The friend's name was given as Hoodman, and Anschlag said he "lost him" just before getting on the boat to cross the bay. The gentleman who traveled with Anschlag from London and who left him at the boat, came to this office last evening and denied all knowledge of a murder committed on him. His name is G. W. Huthmann, and he says Anschlag gave no signs of insanity in his company. Mr. Huthmann has been working here for 11 months.

## THE COURTS.

Balderamo, the Horse Thief, Sentenced to Four Years.

JUDGE CHENEY'S COURT.

D. Balderamo, convicted of grand larceny in stealing a horse at Artesia, was sentenced to four years in Folsom Prison.

The trial of J. Fitzgerald, for burglary, was postponed to next Tuesday.

Wiley, who was in the same scrape, pleaded guilty October 1st and got a one-year sentence.

Matthew Sullivan, arraigned for robbery, Jerry Murphy, for assault to kill, and Charles Grassi, for murder, all pleaded not guilty, and their trials will be set next Monday.

An Hong, convicted of an assault with a pickfork some time ago, was brought up on a writ of habeas corpus and discharged.

Miguel Ernaia, accused of assault to rob, was discharged on motion of the District Attorney.

Mike O'Neil was convicted of vagrancy before Justice King, and appealed to the Superior Court. He was discharged yesterday on the ground of erroneous judgment of the court below.

The trial of Dr. La Fonda, for rape, was concluded yesterday. Anna Graham's mother gave her testimony, and a man named Welch made himself very officious for the defense, telling the witnesses what to swear to, etc. He wanted to be made an interpreter in the case, as La Fonda speaks French. The jury went out at 11 a.m., and at 5 p.m. brought in a verdict of guilty.

JUDGE GARDNER'S COURT.

The case of Philip Sieher against D. J. Lewis was continued to November 26th, to be then reset for hearing.

In the case of B. G. Perkins vs. H. H. Wakeman, judgment was rendered in favor of the defendant.

JUDGE O'MELVENY'S COURT.

In the case of J. P. McCarthy vs. J. W. Germain, more testimony was taken, and the trial was continued to 9 a.m. today.

The suit of Kaufman against Mayor was tried before a jury yesterday. At the close of the plaintiff's case the defendant moved for a non-suit, which was granted.

O'Shea vs. Guirado was reset for December 29th.

JUDGE HUTTON'S COURT.

Albania Addition Water Company vs. Mayberry; motion for a new trial submitted.

In several cases of the Los Angeles National Bank against Williams, judgments were confessed and motions for allowances for attorneys' fees were heard.

In re estate of Boutwell, Daniel & Savage were allowed \$310 attorney's fees.

NEW CASES.

Henry A. Winslow sues to foreclose a mortgage for \$2000, given by J. L. Weed and Frederic J. Chamberlin, on land in the rancho Rincon de los Bueyes, in this county.

Z. Decker applies for letters of administration on the estate of George B. Owens, deceased.

Frank H. Gassaway sues Juana A. Neal for \$50,000 damages for breach of contract in leasing her theater to H. C. Wyatt, after

plaintiff had put up \$5000 to secure a lease to himself.

The Young Men's Christian Association apply for leave to mortgage their new building on Fort street for \$35,000. The lot cost \$37,000, of which \$34,000 has been paid. The building has cost \$34,000, and will cost \$35,000 more. The money raised on the mortgage is to pay up the balance on the lot and the building, beyond the amount to be raised otherwise. Judge O'Melveny set the hearing for November 22d at 10 a.m., in Department No. 2, Jones' block.

James S. Tappan brings action to foreclose a mortgage for \$19,000, given by T. S. Hamilton and R. D. Wade on land situated on the southerly extension of Main street, being part of the purchase price of \$41,000.

Mary L. Wager files a complaint alleging that she gave Edgar A. Wager \$1500 for a life-keeping on July 1, 1888, during the fall of 1887. Edgar A. Wager took the money and bought with it a portion of block 98 of the McClay rancho, in the town of San Fernando. On December 9, 1887, he conveyed the property, for a nominal consideration, to his wife, Alline E. Wager, and died intestate on December 21st, leaving no property. Plaintiff alleges that Alline E. Wager knew that the land was purchased with the plaintiff's money, and she now sues her for the amount.

JUSTICE TANEY'S COURT.

Miss C. J. Jerabek was tried for poisoning a pug dog belonging to C. D. Platt. A large number of witnesses were examined and the case took all the afternoon.

Ellen Wesley pleaded guilty to battery and was fined \$7.

MISS CHURCHILL.

A Reading Given Under Dampening Circumstances.

Owing to the mud and rain but few people were courageous enough to venture out last evening to enjoy "An Hour with the Poets" as portrayed by Miss Churchill in the Central Baptist Church. The audience was so small when the hour for opening arrived that Dr. Pendleton announced that Miss Churchill would render a selection of two or three poems, and then be returned and the entertainment postponed for one week, when it was to be hoped the weather would be more favorable.

Miss Churchill appeared in full evening costume, and received hearty applause from the score or more of valiant lovers of the poets present.

After a few preliminary remarks concerning the quantity and quality of the Los Angeles mud, which she said, quite equaled the Illinois article, where, at one time, in her experience, chisels were used to pry the clay off the boots of pedestrians. She commented on the periodicals on their bravery in coming out on such a night, and then proceeded to recite "Mary Queen of Scots," in a style that showed her to be thoroughly conversant with the difficult art of elocution.

Her voice is full and strong, and her face very expressive. Through a series of graphic word-pictures she led her hearers from the fair shores of France, the convent, the veiling of the veiler hymn, and the happy bridal morn of the golden-haired queen, down through the gloom of prison walls, and battle-cries to the signing of the petition which deprived her of her crown, and the final death scene at the scaffold, when the gleaming broad-ax of the executioner severed the queenly head, and the noblest of the Stuart race was but a bleeding piece of clay.

This was followed by the humorous selection, "The New Church Organ." In her rendition of this somewhat hackneyed piece, Miss Churchill gave it new life and spirit, and her listeners were convulsed with laughter. She brought out the high-pitched, falsetto tones of the old-fashioned toothless grandame to perfection—nasal twang and all—and at its conclusion the audience received back their tickets and dispersed in great good humor, to return again next Friday evening, when the entire programme will be rendered.

BOARD OF HEALTH.

A Smallpox Question for the Supervisors to Settle.

The Board of Health held a special session yesterday to attend to the first-class sewer matter. No action was taken, however, as it was reported that the property owners had agreed to connect with the new sewer, and the old wooden box will be torn out, so that it shall not impede the construction of the cable-road.

The board discussed the fact that the expenses in caring for smallpox patients during the past two years have amounted to \$25,000. A large proportion of this was paid for the care of patients being nursed out of the city. It was voted that the Council be requested to ask the Board of Supervisors to contribute \$10,000 as the county's proportion of the expense of the health officer.

The health officer was also instructed to notify Dan Keane, contractor for the disposal of dead animals, to execute his contract with the city as prepared by the City Attorney.

DISGUISED BIDDERS.

They Want to Know the Why of a San Jose Contract.

The people of Santa Ana are up in arms against their Board of Trustees.

In July last the city voted \$25,000 in bonds for the purpose of erecting water-works.

It is claimed that before the trustees advertised for bids, they let the contract to one of their friends, and when the bidders examined into the matter, they found that the material had already arrived in the hands of the trustees, and that \$15,000 worth of pipe, which was purchased in the East, had been laid down.

The contractors are thoroughly aroused, and it is said that the citizens have employed legal advice, and that the whole matter will be investigated very soon.

Several of the bidders reside in Los Angeles, and they will do all in their power to have the matter investigated.

The trustees explain their actions by saying that the engineer, who drew the plans for the works, happened to be east, and saw a chance to purchase a lot of pipe cheap, so he bought and laid it down.

Thinking that he would take his chances on getting the contract. The citizens and contractors who were left out did not take much stock in this statement.

INVESTIGATION.

Mr. Morton Apologizes and Keeps His Place.

The special committee of the Council to investigate the case of Morton, Superintendent of Sewers, whose dismissal was asked for by Mayor Workman, on the ground of insubordination in refusing to produce the records of his office, so that they could be transcribed in the records of the Surveyor's office, met in the Mayor's office yesterday afternoon. It was shown that Mr. Morton, while he had not refused positively to produce the books, has put off doing so on one excuse and another, and had treated the Mayor with marked discourtesy.

Mr. Morton apologized to his colleagues for his past actions and promised to at once produce his books, in which case the Mayor will withdraw his request for his dismissal.

There is no question what Morton is a very valuable man in his place, but in the present instance it is said that he has overstepped the bounds.

No Board of Trade Meeting.

A special meeting of the Board of Trade called for last evening, to discuss the unfair discrimination of the railroads against Los Angeles in the matter of freight rates to points in Arizona and New Mexico, again proved a failure, probably owing to the bad weather. This question has been pretty generally discussed among the merchants for some time, and considerable kicking has been done; still, at the hour for the meeting last night only President Germain and a couple of members of the board were on hand. After waiting for something over an hour, and no one else putting in an appearance, President Germain adjourned, saying that he would call a meeting of the Board of Directors on Monday afternoon, when suitable resolutions would be adopted, asking that their grievances be attended to.

## WANTS BIG DAMAGES.

## FRANK GASSAWAY SUES MRS. JUANA NEAL.

He Claims \$55,000 for His Broken Contract in the Los Angeles Theater—Says He Has Not Defaulted in Any of His Obligations.

Yesterday afternoon Frank H. Gassaway brought suit against Mrs. Juana A. Neal for \$55,000. It will be remembered that Gassaway first figured in this city during Mrs. Benton's Cinderella performance at the Grand Opera-house.

Shortly afterward Gassaway induced Mrs. Neal to build a theater on Spring street, below Third.

Gassaway and Mrs. Benton raised \$5000 and paid it in as a bonus. Shortly after the lease was signed, and the money paid in, Mrs. Benton left the city, and Gassaway remained here until the theater was well under way, when he left for San Francisco.

The agreement with Mrs. Neal was to the effect that Gassaway was to pay an additional \$5000 one month before the opening of the theater. Gassaway returned to this city several weeks ago, and was informed that the time for him to pay the second \$5000 was up.

He failed to make the payment, and the theater was turned over to H. C. Wyatt, manager of the Grand Opera-house, who will open it early in December.

Gassaway strongly objected to this course, and yesterday he filed through his attorneys, Del Valle & Munday and F. V. Bell, the following complaint:

In the Superior Court of the county of Los Angeles, State of California.

Frank H. Gassaway, plaintiff, vs. Juana A. Neal, defendant.

Now comes the plaintiff, by his attorneys, and for cause of action against the defendant, shows to the court and alleges as follows:

First—That on or about the 2d day of February, A. D. 1888, at the city and county of Los Angeles, State of California, the defendant made, executed and delivered a certain lease and contract to the plaintiff, a copy of which is hereto annexed, marked "Exhibit A," and made a part of this complaint.

Second—That the plaintiff, pursuant to the terms and conditions of said lease and contract, and in full force and effect, the defendant made, executed and delivered to the plaintiff, a copy of which is hereto annexed, marked "Exhibit B," and made a part of this complaint.

Third—That the defendant has violated the terms and conditions of said lease and contract, and has committed breach thereof in this, that before the theater therein mentioned and referred to was completed and ready for occupancy, the defendant made, executed and delivered to the plaintiff, a copy of which is hereto annexed, marked "Exhibit C," and made a part of this complaint.

Fourth—That the said plaintiff has fully and faithfully performed all and singular the promises and conditions by him to be performed in and by the terms of said lease and contract.

And for a further and separate cause of action against the defendant, plaintiff shows to the court and alleges as follows:

First—That on or about the 2d day of February, A. D. 1888, at the city and county of Los Angeles, State of California, the defendant made, executed and delivered to the plaintiff, a copy of which is hereto annexed, marked "Exhibit A," and made a part of this complaint.

Second—That the plaintiff, pursuant to the terms of said lease and contract, and upon the execution thereof, deposited with the defendant the sum of \$5000 in United States gold coin.

Third—That the defendant has violated the terms and conditions of said lease and contract, and has committed breach thereof in this, that before the theater therein mentioned and referred to was completed and ready for occupancy, and while said lease and contract was in full force and effect, the defendant executed and delivered to the plaintiff, a copy of which is hereto annexed, marked "Exhibit B," and made a part of this complaint.

Fourth—That the said plaintiff has fully and faithfully performed all and singular the promises and conditions by him to be performed in and by the terms of said lease and contract.

And for a further and separate cause of action against the defendant, plaintiff shows to the court and alleges as follows:

First—That on or about the 2d day of February, A. D. 1888, at the city and county of Los Angeles, State of California, the defendant made, executed and delivered to the plaintiff, a copy of which is hereto annexed, marked "Exhibit A," and made a part of this complaint.

Second—That the plaintiff, pursuant to the terms of said lease and contract, and upon the execution thereof, deposited with the defendant the sum of \$5000 in United States gold coin.

Third—That the defendant has violated the terms and conditions of said lease and contract, and has committed breach thereof in this, that before the theater therein mentioned and referred to was completed and ready for occupancy, and while said lease and contract was in full force and effect, the defendant executed and delivered to the plaintiff, a copy of which is hereto annexed, marked "Exhibit B," and made a part of this complaint.

Fourth—That the said plaintiff has fully and faithfully performed all and singular the promises and conditions by him to be performed in and by the terms of said lease and contract.

Wherefore, plaintiff demands judgment against the defendant for the sum of \$55,000, with legal interest on \$5000 parcel thereof from the 2d day of February, A. D. 1888, together with costs of suit.

F. V. BELL and DEL VALLE & MUNDAY, Attorneys for Plaintiff.

BOARD OF SUPERVISORS.

Petition for the Anaheim and Long Beach Railroad.

The petition of M. Macdonald was presented for a franchise for the Santa Ana and Long Beach Railroad. The road is to be of standard gauge, and to run from near the west boundary line of Santa Ana, along the Anaheim Landing road about two and one-half miles, and thence on a private right of way to the east boundary of Long Beach. The hearing of the petition was set for November 23d.

Three copies of the Code were ordered purchased for the use of the Recorder's office.

Recorder Gibson was allowed six deputies \$100 each at \$30, seven at \$75, and nine at \$50. He was also allowed a special clerk for December to work on the mortgage books for the use of the Assessor.

A large number of bills were audited, and the canvassing of votes was then proceeded with.

Adjourned until today at 10 a.m.

Robbed by a Woman.

A German prostitute, who gave the name of Carrie Lee, was arrested by Officer Mackle yesterday on a warrant issued by Justice King. The complaint was made by a German named John Michels, and charged that the woman robbed him of some money in a Chinese restaurant on Upper Main street, whether Michels had taken her to supper. It is said the woman has resorted to this line of business since her husband's complaints to that effect having been made. Bail was fixed at \$500, in default of which she was sent to jail.

## A FRIGHTFUL SKIN DISEASE.

## Sufferings Intense, Head Nearly Raw, Body Covered with Sores—Cured by the CUTICURA Remedies.

MRS. STEVENS & BRUNER, MEMPHIS, MO. Dear Sirs: About two months ago, on your recommendation, I bought a bottle of CUTICURA RESOLVENT, one box CUTICURA SOAP, and one cake of CUTICURA SOAP, for my son, aged thirteen years, who has been afflicted with eczema for a long time, and I am pleased to say that I believe the remedies have cured him. His sufferings were intense, his head being nearly raw, his ears being gone except the gristle, and his body was covered with sores. His condition was frightful to behold. The sores have since disappeared, his skin is healthy, eyes bright, cheerful in disposition, and is working every day. My neighbors are witnesses to this remarkable cure, and the doubting ones are requested to call or write me, or any of my neighbors.

Sneezing Catarrh.

The distressing sneeze, sneeze, sneeze, the acid, watery discharges from the eyes and nose, the painful inflammation extending to the throat, the swelling of the mucous lining, causing choking sensations, cough, ringing noises in the head and splitting headaches—how familiar these symptoms are to thousands who suffer periodically from heat colds or influenza, and who live in ignorance of the fact that a single application of SANFORD'S RADICAL CURE FOR CATARRH will afford instantaneous relief.

But this treatment in cases of simple Catarrh gives but a faint idea of what the remedy will do in the chronic forms, where the breathing is obstructed by choking, putrid mucous accumulations, the hearing affected, smell and taste gone, throat ulcerated and heaving cough gradually fastening itself upon the debilitated system. Then it is that the marvelous curative power of SANFORD'S RADICAL CURE manifests itself in instantaneous and gratifying relief. Cure begins from the first application. It is rapid, radical, permanent, economical, safe.

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box CATARRHAL SOLVENT and an IMPROVED INHALER, price \$1.

<b>Stolen Goods Recovered.</b>		
Detecter Ben Glass yesterday recovered a lot		
of garden tools stolen some time ago from		
F. A. Laumier, a gardener in the southern		
part of the city, at the second-hand store of		
William Levy, on Upper Main street.		
Laumier first went to the place, where he		
saw the tools, and, under the pretense		
of wanting to buy, fully identified it. It		
is then reported at the police station, where		
the officer was sent down with him and the		
tools were taken to the police station. Mrs.		
Levy is highly indignant over what she		
termed the unfair advantage which had		
been taken of her, and abused Laumier at a		
great rate, until the officer interposed and		
gave her some good advice. The only Wil-		
liamson, her husband, was sick at the time.

POINTS OF THE MORNING'S NEWS.

Stories of crime in Ireland told before

the Parnell Commission. Latest esti-

mates on the political complexion of the

next House. "Big Bertha's" son con-

victed at San Francisco. Gen. Harrison's

old regiment to escort him to Wash-

ington for inauguration. Track-laying

begun in the "White Oaks" road.

The count in the Fifth California

Congressional District. The famous new

of Kennare's letter to the Pope resigning

office. Southern Pacific's work on the

Templeton tunnel. Decision in Michigan

of a suit against the Calumet and Hecla

mine. Admiral Baldwin dying slowly.

Fatal affray at Bayou Sara, La.

The Woman's Congress

in session at Detroit. Mrs.

Jay Gould recovering. Proceedings of

the National Board of Trade at Chicago.

A ruling under the Exclusion Act.

The Queensland Government causing bitter

feeling in the Australian colonies.

Russia again denies warlike intentions.

Report of Chief Constructor Wilson of the

navy. Large purchase of racing stock

at Stony Ford, N. Y. Knights of

Labor in session at Indianapolis.

Balfour's reply to Gladstone's Birmingham

speech. Lord Saville going to France.

Slavers captured off the Zanzibar coast.

A case of yellow fever at New York.

The political troubles in the Chickasaw

Nation settled. Plenty of rain in

California. Archbishop Segher's

remains interred at Victoria.

B. C. New life-saving stations to be

built on the Pacific Coast. Murder at

Wallingford, Ct. Failure of a large firm

at Chicago. Proceedings of the Tuf

Congress at New York. Dakota settlers

petitioning for their rights. Mary Ander-

son's New York admirer declared insane.

Who will be Mayor? Trot out your

cavallos negros, caballeros!

How about the branch postoffice?

Are we to have it or not?

EASTERN Republicans begin to talk

McKinley for Speaker of the House.

The Sacramento Bee wants a State

law to assist in suppressing insect

pests. We second the motion.

The City Councilmen are respect-

fully invited to take a walk down First

street as far as the river.

THE Pope has again ordered the

Irish bishops to actively denounce the

plan of campaign and boycotting. This

will not suit the Irish.

Gov. SWINEFORD says the popula-

tion of Alaska is 49,850, of whom 6500

are whites, 1900 creoles and 2905

Aleuts.

THE Republicans intend to make the

inauguration ball at Washington next

March the biggest thing ever known in

the country.

OFFICIAL returns from every county

in Pennsylvania show a plurality for

Harrison of 79,879. Blaine's plurality

in 1884 was 81,019.

OFFICIAL reports from 45 out of 60

counties in New York and reliable

estimates from others show that Har-

rison's majority is about 13,000.

THE Government receipts for Octo-

ber averaged a little over \$1,000,000 a

day, including Sundays. Uncle Sam

has a big income, but his expenses are

large, also.

REAL ESTATE in Melbourne, Australia,

has sold as high as \$7500 a foot, and

for acre property, a few miles from the

city, \$15,000 per acre was recently paid.

The population of Melbourne is about

the same as that of San Francisco.

It is now in order for the adminis-

tration organs to tell us what effect

the intermarriage between the Endicott

family and the ex-commissioner from

England is likely to have on the

future of free trade in this country.

ARIZONANS are naturally much in-

censed over the return to the San Carlos

reservation, under pardon, of Kid and

his band of Apaches, sentenced about a

year ago to Alcatraz, by a military

court, for mutiny at San Carlos, and

who had left the reservation and killed

two Americans. The proof of their

crime was conclusive. It is said that

Gen. Miles was not consulted in the

matter of the pardon. The treatment

of the Apache question by the United

States Government has been a suc-

cession of costly and disgraceful blunders.

THE mouldy chestnut is again sent

from Europe about denials by Russia

that certain mysterious military move-

ments on the frontier mean anything.

The Russian authority says:

The object of the movement is merely to

develop defenses necessary to preserve a

military balance compared with the forces

maintained by neighboring powers.

What a time these European powers

have trying to balance themselves on

the roof of a statu quo! Why don't

they come down on the entente cordiale

and have a good time?

## Tammany Again in Power.

New York State has rejected a Governor who belongs to the Tammany wing of the Democratic party. He has hitherto displayed all the undesirable characteristics of that powerful organization, so that it cannot be claimed that his record is unknown. Now the city of New York has also taken a new departure. It has elected a Tammany mayor. It did this in face of a warning, and knowing that its new ruler will possess, under a new charter, almost kingly powers.

After January 1st, Tammany will once more be in complete control in New York. The patronage of the Mayor's office will be used to wipe out the County Democracy and make Tammany the great Democratic organization of the Nation. To effect this, its leaders have sacrificed the national ticket, as they have always been ready to do, for the sake of "boodle," which is their only god. The triumph of Tammany was greater and the downfall of the County Democracy more overwhelming than mere figures can give any conception of. The organization, founded in 1880, in a spasm of virtue, to overthrow Tammany, has itself been completely overthrown, and the remains of the County Democracy will doubtless soon take their places in the political graveyard, alongside of Irving Hall. In some districts Cleveland was sacrificed, even in the ratio of three to one, in the interest of local candidates.

The powers of the Mayor of New York under the new charter are enormous—greater by far than those vested in the rulers of many good-sized European states. No such powers have hitherto been vested in any citizen of New York. He will have, without the necessity of any confirmation by the Board of Aldermen, the right to appoint public officials whose term of office will extend many years beyond his own. It rests entirely with the Mayor to choose suitable persons for the many responsible positions to be filled. The Mayor who will be chosen in 1890 will find himself confronted with officers appointed by his predecessor. Among other offices, the present Mayor will have the appointment of a city chamberlain, who handles each year \$30,000,000 of the people's money. The Commissioner of Public Works, who also has to be appointed, is a member of the Aqueduct Board, and in his own department will have the disbursement of many millions of dollars. The three members of the Board of Excise are also appointed. They have absolute power as to the licensing of nearly seven thousand public liquor shops.

The reusultation of Tammany is due to purchased votes, and shows what dangerous power for evil lurks in the heterogeneous masses which crowd into our large cities. Will the respectable citizens of New York act promptly to prevent netarious legislation, or will they wait, as in 1871, until something like a revolution is necessary to "turn the rascals out?"

## Rents—Go Slow, Landlords!

There is a movement on the part of a few indiscreet property-owners to run up rents again as the demand for houses increases. We say in advance, Don't kill the goose that lays the golden egg. It will be no difficult matter to materially retard the growth and prosperity of Los Angeles by a resort to the same tactics which were prevalent last winter. Exorbitant charges for rent will be one of the surest means of preventing the stranger from settling among us. Let those who have houses to rent be satisfied with a fair interest on their investments. They will realize more in the long run by this course, and they will also be contributing to the upbuilding and the prosperity of the whole community. A new era of solid growth may easily be inaugurated this coming winter if we will be reasonable and just in our demands. Lumber is cheaper now than last year at this time, and the cost of building is materially less. It would be well if Los Angeles had more small cottages to let, such as might be rented at from \$20 to \$25 per month. If she had a couple of thousand more such cottages they would doubtless all find tenants as soon as completed. But let our property-holders bear in mind that they strike a deadly blow at the life and prosperity of this city when rents are advanced so that they bear upon extortion. We must not make such a mistake.

## A Big Leak.

A short time ago, desiring to purchase some lemons in a Los Angeles store, the writer was informed that there were none in town, but that a carload was expected from Sicily, via New York, in a few days. Yesterday, buying some pears, the storekeeper recommended them very highly, as they came from New York, and also drew the writer's attention to some choice apples from that State. In the same store were eggs, butter and chickens from Kansas; cheese from Santa Clara; oranges from Tahiti; potatoes from San Luis Obispo; onions from Ventura; beans from Santa Barbara; dried California figs from Placer county; prunes from San Jose; limes from Mexico; honey from San Diego; olive oil from the southern cotton fields, and canned fruits from half a dozen counties outside of Los Angeles. This shows a very unhealthy condition of affairs. Outside sections can well afford to let Los Angeles become a lodging-house for eastern visitors as long as they retain the business of supplying the lodging-house with provisions at a good round figure.

The following from the Chicago Inter Ocean expresses a right sentiment: "If a majority of the voters in Speaker Carlisle's district expressed a desire for his reelection by their ballots, he should be held as reflected. Technicalities should not be allowed to supersede the equities. If the law of Kentucky be so clumsily worded, or so unjust in purpose, as to deny election to him whom the people desire to elect, it should be amended right speedily. It is hardly probable that the alleged

irregularity in the perforation of tickets can be held to invalidate the votes which they expressed. If it be so held, the Republican party at large will regret the decision. Petty irregularities should never disturb a justly recorded verdict, nor do Republicans desire that any Democrat should be tricked out of an office to which he has been fairly elected."

It is said that in various ways \$275,000 was raised and placed in the hands of the Democratic State Committee of Indiana to be used where it would do the most good, while the Republican National Committee sent less than \$5000 into the State, and other contributions were barely sufficient to meet the expenses of the campaign. The wonder is not that Gen. Harrison's plurality is not greater, but that he should have had a plurality of any kind.

A SACRAMENTO man has a project to establish a California exhibition in London. He wants \$1,000,000, and thinks the State Legislature should contribute at least a quarter of this amount. Before Southern California would agree to this, we should want to be sure that this section would have at least an equal show with the Northern Citrus Belt. We have grown rather suspicious of our northern neighbors of late, for cause.

In the general voting over the national Republican victory, let it not be forgotten that it was a Pacific Coast State—Oregon, "where rolls," etc.—that started the great Republican boom. She gave Hermann, for Congress, 8000 majority in June, and from that day the Republican victory was assured.

The total pack of the three fruit canneries at San Jose this year amounts to 265,000 cases, an aggregate of 15,000,000 pounds. The number of persons employed was 1200; the amount of green fruit used 20,000,000 pounds. How does this compare with the pack of Los Angeles?

A DEMOCRAT who visited the President says: "Mr. Cleveland goes out of office with no regrets whatever for his course, except the retention of Republicans in the public service." Grover is evidently somewhat riled over his defeat.

The probable Republican majority in the next Congress has grown smaller, but the Democrats now admit that we shall have a majority. Chairman Quay now claims six majority. Several New York journals think there will be eleven.

A GOOD many people who came through on the recent excursions from the East are going to settle as far north as Humboldt county.

**General Stanley Quay.**  
The general who marshaled the Republican forces in this country and led them to a victory almost unexampled in political history was Matthew Stanley Quay. Mr. Quay is a native of Dillsburg, York county, Pa., born there September 30, 1833. He was graduated from Jefferson College when but 17 years old, and when but 21 was admitted to the bar. Two years later he became Prothonotary of Beaver county, and was re-elected to the same position in 1859. He was Lieutenant of the Tenth Pennsylvania Reserves, Colonel of the One hundred and Thirty-fourth Pennsylvania Volunteers, and became Commissary General. He was private secretary to the Governor of Pennsylvania; was Major and Chief of Transportation and Telegraphs; was the military secretary of the Governor of Pennsylvania, 1861-65; was a member of the Legislature, 1865-67; Secretary of the Commonwealth, 1873-78; Recorder of Philadelphia and chairman of the Republican State Committee 1878-79, besides a dozen other honors heaped upon him by the Keystone State. In 1887 he took his seat in the United States Senate, having been chosen to succeed John I. Mitchell. The Republicans could not lead them against an enemy intrenched behind a hundred thousand Federal offices.

## AMUSEMENTS.

## Sackville's Departure.

(Press Dispatch.)  
WASHINGTON (D.C.), Nov. 16.—The departure of Lord Sackville and his family from Washington will take place about the end of the present month. It is interesting to know the circumstances which led to the indicating of the unfortunate Marchmont letter. It was a dismal autumnal day at Beverly farms. Without it was cheerless and uninviting, and within it was comfortable and lonely. The beautiful daughter who presided over the father's household was absent on a visit to Mrs. Whitney, in the Berkshire Hills. In sheer desperation of isolation and ennui, Lord Sackville betook himself to disposing of a mass of correspondence which had accumulated on his hands. Among the letters was the epistolary bomb which was to explode with sufficient force to sever not only the official intercourse between two great nations, but to attract the attention of the diplomatic centers and circles of the civilized world.

The letter was a plain and apparently straightforward document of inquiry and pursuit of light, just such as a person would feel like answering when shut up in a befooled, rain-spattered country abode. The answer was penned and marked "private," and went off in the mails of that day, and nothing more was thought of it until the reverberations of its explosion in print were heard from the distant shores of the Pacific. [Through the columns of the LOS ANGELES TIMES.]

## A Canada Carload.

(Pasadena Union, Nov. 15.)  
Dr. J. L. Lanterman and Jessie Knight, residents of La Cañada, shipped east today a carload of 20,000 pounds of as fine dried fruit as ever left California. The consignment consisted of prunes, apricots and peaches, and was shipped to Earl Bros. of Chicago.

## Vanderer and McKenna.

(Oakland Tribune.)  
The remarkable majorities given for McKenna and Vanderer ere in themselves valuable testimony of the regard in which their constituents hold them. Both McKenna and Vanderer run well ahead of the ticket, and McKenna's majority will exceed 5000.

## Democrats Not Hopeful of the Next House.

Gen. Clark Unable to Figure Out the Needed Majority.

Quay Says the Republicans Will Be in Full Control.

Gen. Harrison's Old Regiment Proposes to Act as His Escort to Washington for the Inauguration—Phelps and Clunie Running a Very Close Race.

By Telegraph to The Times.

NEW YORK, Nov. 16.—[By the Associated Press.] A Washington special to the Post says: Gen. Clark, Clerk of the House, has again abandoned the claim that the Democrats are certain to have a majority, and states that it will be necessary to await the official returns. All that can now be said is that the result is in doubt. One of the leading subordinate officials in Gen. Clark's office, who has all the information as to Democratic hopes which Gen. Clark himself possesses, has been asked by the City of Washington to resign, as he has abandoned the expectation which they had a few days ago that the Democrats would organize the House.

The confidence of the Republican leaders is likewise shaken, and they now claim that no combination of circumstances will it be possible for the Clerk of the House to refuse to put the majority of the Republicans upon the roll of the House of the Fifty-first Congress.

Chairman Quay claims six majority. Senator Mahone is also confident that the Republicans will have a majority. The Post then gives the latest figures on State delegations, and shows that the Republicans will have 166 members of the next House to 155 for the Democrats.

The tall and the small published a similar table and shows the same result.

## CHAIRMAN QUAY'S FIGURES.

WASHINGTON, Nov. 16.—Senator Quay, chairman of the Republican National Committee, said to an Associated Press reporter this afternoon that the Republicans would certainly have control of the next House of Representatives by a majority of five, and their majority might be nine. There were several doubtful districts, the result in which would determine whether their majority would be higher or lower than the figure given. Senator Quay declined to present to give any particulars upon which his figures are based, or state what districts are still regarded as doubtful.

## GEN. CLARK'S ESTIMATE.

WASHINGTON, Nov. 16.—Gen. John B. Clark, Jr., Clerk of the House of Representatives, believes that 100 Democratic representatives have been elected, and that six districts are in doubt. This calculation is based on the assumption that Wilson (Dem.) is elected from West Virginia. The doubtful districts in Clark's estimate are the First California, Tenth Kentucky, Second North Carolina and First, Third and Fourth West Virginia. These districts, he says, are doubtful, because they are claimed by both parties. The majorities are so small that an official count must be awaited to determine the result. In the case of Representative Bacon (Dem.) of New York, who is reported to have been defeated by eight majority, Gen. Clark expects that a contest will ensue. Of one thing he is confident, and that is that the majority in the next House will not be five either way. He believes that the functions of the Clerk in the organization of the new House, and the power he is supposed to be able to exercise in seating or unseating members, Gen. Clark says that his duties are fixed by the Constitution, and purely ministerial. If a member-elect presents proper certificates of election, his name will be placed on the roll, and not otherwise. There cannot be duplicate certificates, because there are at present no dual State governments, as there have been in times past in the South. Gen. Clark said that from the official records before him, the Republicans had elected a majority of one in the next House, and this was because up to the present time but one certificate had been presented to him, namely, that of Representative Herrington (Oregon). The certificates are usually a long time coming on, as they are not issued until some time after the official returns are made public. In the case of Kansas, the certificates were not received until after the election of January, and in many other States the date is equally remote from election day.

The reduction of the claims of both parties to the very narrow majorities of from five to six suggests interesting possibilities when it is remembered that no less than six persons who were elected to the Fifth Congress died either before they had taken their seats or after they had taken their seats, and that there is a strong probability that there will be some deaths among the 325 men of mature years during the long period, thirteen months, intervening between election day and the assembling of the new Congress.

## THE PRESIDENT-ELECT.

Harrison's Old Regiment to Escort Him to Washington.

INDIANAPOLIS, Nov. 16.—[By the Associated Press.] The President-elect had the usual number of out of town visitors today, among them Gen. Reuben Davis of Aberdeen, Miss., second cousin of Jeff Davis. A delegation of about fifty ladies, members of the Woman's Relief Corps of the G.A.R., arrived from Cincinnati and vicinity at noon, accompanied by a splendidly drilled drum corps of eighteen juveniles, who led the way out to Gen. Harrison's residence, followed by the visiting ladies and many townspeople. They were received in the parlors by both Gen. and Mrs. Harrison.

Tonight the distinguished couple were tendered a formal reception by members of the General's old regiment. The reception took place in Wright's Hall, and lasted till 10 o'clock, when Gen. Harrison and his party retired home, amid cheers and good wishes from the old comrades. President-elect never seemed in better health and spirits. The fatigue of the campaign has entirely disappeared; he has more color in his face and in his friendly eyes, who have known him over 20 years, say that he never looked to better physical advantage than tonight as he stood beside his accomplished wife and received the cordial congratulations of his old soldiers.

After the departure of Gen. Harrison, Col. Merrill called the meeting to order and submitted a resolution to the effect that a committee be appointed to wait on the President-elect and ascertain whether it would be agreeable for the members of his regiment to accompany him to Washington on the 4th of March to take part in the inauguration. This committee will report in a few days. It is probable that the veterans will act as an escort to the General and Mrs. Harrison.

## Phelps and Clunie Very Close.

SAN FRANCISCO, Nov. 16.—The Examiner will say tomorrow that its canvass and comparison of the results in this part of the Fifth Congressional District warrant the assumption that Clunie (Dem.) has a majority over Phelps (Rep.) of between 40 and 70 votes. The official count, however, it says, may change these figures.

## That New York Mistake.

LAFFETTE (Ind.), Nov. 16.—S. C. Sheerin, secretary of the Democratic National Committee, is here on private business. He denounces as false the story telegraphed yesterday that he had been summoned to New York to see about an alleged mistake in the count. He regards the election as settled.

## Headquarters Closed.

NEW YORK, Nov. 16.—The Republican National Committee closed its headquarters today.

## The Woman's Congress.

DETROIT, Nov. 16.—At today's session of the Woman's Congress, Mrs. Julia Ward Howe was re-elected president. Twenty-five vice-presidents were selected from the various States represented.

Mrs. Mary E. Bagg presided at the forenoon session. Mrs. Anna Jennette Miller,

an exponent of dress reform, read a paper on "Correct Dress." A short discussion was held on this paper, several delegates taking part. Miss Calliope Kestell, the Grecian educationalist, who has established schools in Athens and Constantinople, spoke briefly on educational matters.

## A Chicago Boodler in Luck.

CHICAGO, Nov. 16.—Ed McDonald, the most prominent of the defendants in the famous boodler trials, had the furies against him in the lower tribunals reversed today by the Illinois Supreme Court. A majority of the boodlers, including McDonald, were sentenced to the penitentiary, and with his exception are now serving terms in Joliet. He for more than a year has remained in jail at Chicago, determined apparently not to accept a convict's stripes until every technicality has been exhausted. The reversal by the Supreme Court does not necessarily imply final escape, but at this late day the new turn of affairs will undoubtedly render another conviction a matter of extreme difficulty.

## Mexican Cabinet Changes.

CITY OF MEXICO, Nov. 16.—It is stated that Señor Romero, Minister to the United States, has been called to take charge of the Ministry of Foreign Affairs, Señor Mariscal going to England as plenipotentiary. It is also stated that Gen. Sostene Rocha will be appointed Secretary of War.

WASHINGTON, Nov. 16.—Señor Romero, Mexican Minister to the United States, said tonight that there was no foundation for the

UTICA (N. Y.), Nov. 16.—[By The Associated Press.] Sister Mary Frances Clare, "the nun of Kenmare," and recently mother superior of the Sisters of Peace, is now living in retirement in this city, engaged in literary work. Today she made public her letter of resignation to Pope Leo XIII. The following is an extract from it:

"Holy Father: It is with great grief and regret that I address this letter to His Holiness. I am now in the hands of the office to which you were pleased to appoint me, and to leave to others the work of the Order of Peace which Your Holiness has authorized to be established. I have not taken this step without long and careful consideration, for I see every day more and more the necessity of such work as this for working girls. They have indeed been the great support of the Roman Catholic Church, and they deserve all that can be done for their comfort and encouragement. But I have found such opposition to this work, which I so dearly love, from certain bishops, whose influence is so powerful that other bishops do not like to support what they disapprove, even though it has the sanction of Your Holiness. That I am obliged to retire from it, I feel, is always delicate, has given way under the pressure and pain of the disapproval."

## COSTLY RACING STOCK.

## Stanford's Famous Purchase from Charles Backman Outdone.

STONY FORD (N. Y.), Nov. 16.—[By The Associated Press.] In November, 1876, Gov. Leland Stanford visited Stony Ford and purchased of Charles Backman 13 head of gilt-edge trotting stock for \$41,300. This purchase (the largest ever made by one man up to that time) included Electioneer, by Hambletonian, out of Green Mountain Maid, and Elaine, by Messenger Duroc, out of Green Mountain Maid.

The price of the stallion was \$12,500, and of the filly \$7000. Since then \$100,000 has been refused for Electioneer, and Elaine has trotted in 2:30, and produced Nartine, with a yearling record of 2:31½. Today, William Russell Allen, who is founding a breeding farm at Pittsfield, Mass., visited Stony Ford with Hamilton Busby and beat Stanford's record. He paid Backman \$44,100 for 10 head. This is the largest sale ever made to one man. Allen has secured a son and daughter and two grand-daughters of the famous Green Mountain Maid. A daughter of Guy, record 2:13, and a son of a sister of Guy (2:17½), and Dictator, sire of Jay-Rye (2:10).

The names of the animals bought and prices paid are as follows: Lancelot, bay colt, 1 year old, by Messenger Duroc, dam Green Mountain Maid, \$12,500; Elita, bay mare, 5 years, by Messenger Duroc, dam Green Mountain Maid, \$10,000; Edita, bay filly, 2 years, by Kentucky Prince, dam Elita, by Messenger Duroc, second dam Green Mountain Maid, \$5000; Miretta, chestnut mare, 3 years, by Kentucky Prince, dam Miranda, by Messenger Duroc, second dam Green Mountain Maid, \$4000; Guyda, bay filly, 1 year, by Kentucky Prince, dam Elita, by Messenger Duroc, dam Elita, by Messenger Duroc, second dam Green Mountain Maid, \$4000; America, black colt, 2 years, by Kentucky Prince, dam Alma, sister of Dexter, \$3000; Guyda, bay filly, 1 year, by Sorrento, dam Mary Whitman, by Kentucky Prince, \$1500; Nydia, bay filly, 1 year, by Kentucky Prince, dam Camille, by Hambletonian, \$1500; Alfaretta, bay filly, 2 years, by Kentucky Prince, dam Elita, by Messenger Duroc, \$1400; Fedora, bay filly, 2 years, by Kentucky Prince, dam Cassandra, by Messenger Duroc, \$1300.

## NATIONAL BOARD OF TRADE.

## A Variety of Suggestions Received from Local Boards.

CHICAGO, Nov. 16.—[By The Associated Press.] The National Board of Trade resumed its session this morning. The Cincinnati Chamber of Commerce presented a resolution for the appointment of a committee of inquiry into the question of the strengthening of our harbor and coast defenses. Adopted.

On behalf of the New York Produce Exchange, a resolution was offered calling on Congress to reduce the revenue. Adopted.

On behalf of the Cincinnati Chamber of Commerce, a resolution requesting that the duty on rough lumber be removed was presented. Action was postponed till the next annual meeting.

The Philadelphia Chamber of Commerce presented a memorial and resolution looking to the restriction of immigration. Passed. Adjourned.

## HEAVY FAILURE.

## A Big Chicago Firm in Financial Trouble.

CHICAGO, Nov. 16.—The heavy wholesale clothing firm of Lindauer Bros. & Co. filed confessions of judgment in the Superior Court today aggregating \$181,652. The firm is regarded as one of the largest wholesale clothiers in the country. The failure is due to slow collections and poor sales, on account of the extreme cold weather. The firm did a business of \$1,000,000 a year. Assets, \$500,000; liabilities, \$400,000.

During the last 60 days the firm has paid out between \$200,000 and \$300,000 for the manufacturing department. The capital stock was originally \$250,000. They look forward to an early settlement, and expect to resume business in about fifteen days. They employed about two hundred hands in their manufacturing department, and these employees had about \$25,000 deposited with the firm. These sums were covered in the firm of Lindauer Bros. & Co. extended all over the West and Northwest, and it was regarded by the trade here and throughout the territory tributary to Chicago as one of the foremost firms in its line of business. Most of the indebtedness is to firms in the East, chiefly in small accounts. The suspension was precipitated by the peremptory refusal of H. A. Kohn, a well-known retired capitalist of this city, to renew a note for \$110,000, which he held from the firm.

Supervising Inspector's Report. WASHINGTON, Nov. 16.—The annual report of the Supervising Inspector of Steam Vessels issued today, shows that during the past year the inspectors on the Pacific Coast examined 488 steamers, having a tonnage of 12,702,911 tons, and 1273 licensed officers. Nine casualties occurred on vessels of the Pacific Coast by fire and storm, and 51 persons lost their lives, including ex-Mayor Bryant of San Francisco. The heaviest loss was by the explosion of a ferry steamer last July, whereby 30 lives were lost.

Peace Among the Chickasaws. KANSAS CITY, Nov. 16.—A Times special from Muskogee reports an amicable adjustment of the difficulties between Gov. Guy of the Chickasaw Nation and the Byrd faction. The conference resulted in the withdrawal of both Guy and Byrd, and an agreement to substitute for the office of Governor Chief Wolf.

## KNIGHTS OF LABOR.

The General Assembly's Session—Several Controversies Brought Up. INDIANAPOLIS, Nov. 16.—[By The Associated Press.] The General Assembly, Knights of Labor, occupied most of the forenoon in committee work.

The first business in the afternoon session was an address by Rev. Wilbur F. Kraft of New York, on the question of Sunday labor. The central thought of the discourse was that Sabbath reform needs nationalization, and it has in substance been delivered by him before.

The Committee on Appeals and Grievances reported protest of District Assembly No. 75 against the organization of National District Assembly No. 236, their report being favorable to the latter. District Assembly No. 75, through A. D. West, claimed that the other organization had not been legally perfected. As both were composed of street-car drivers, the decision will settle to which of two certain local assemblies they will be attached. The report of the committee was adopted, and No. 236 will make an immediate gain in membership of 3000 or 4000 members.

The Committee on State of the Order decided action on the eighth law, and recommended the appointment of a special committee to look after the matter and take proper action. It was so ordered by the General Assembly.

Some member, whose name was carefully suppressed, introduced a proposition, which was defeated, that newspaper men be made ineligible to membership in the Knights of Labor.

A lively discussion ensued over the introduction of the proposition to form Chinese independent organizations. As the present law stands, the Chinese, on the same footing as all others, are sufficient to being the only requirement for admission as members.

Tonight the Committee on Appeals and Grievances are considering the case of Thomas B. Barry of Michigan and J. M. Bloomer of Toledo, O. Bloomer was formerly editor of the Industrial News, published at Toledo, and his statement is that the case is to decide whether the Executive Board can expel a member without trial. He further claims that it is to settle whether a district assembly can destroy property.

On the other hand, it is asserted that he was expelled for vilifying officers of the order. Both of these cases will be reported to the General Assembly in the morning, and their action is looked forward to with considerable interest.

Mrs. L. M. Barry, whose work in the interest of working people, and especially of women and girls, has been constant for a long time, is confined to her bed at a hotel from nervous exhaustion. She has been working very hard, with insufficient rest.

## THE NAVY.

## Constructor Wilson's Report—The Old Hartford—New.

WASHINGTON, Nov. 16.—[By The Associated Press.] The annual report of Chief Constructor Wilson of the navy shows that the sum of \$885,340 was expended in repair of ships and purchase of tools, etc. The payments made on account of vessels, building under contract, up to October 31st, aggregate \$3,266,195. The strength of the navy and condition of the vessels is stated as follows: Five double turreted monitors awaiting completion, two belted cruisers preparing on the ways; thirteen single turreted monitors in ordinary; twenty-three unarmored steel and iron vessels, four of which are in commission, eleven building, two repairing, five on station and one in ordinary; thirty-eight wooden steam vessels, nearly all on station or undergoing repairs, and eleven iron and wood steam tugboats. The estimates for the next fiscal year aggregate \$936,452.

The whole appropriations for the fiscal year were \$938,952 in addition to the estimates \$3,540,000 will be required to meet payments on account of hulls and outfits of new ships. But this sum has already been appropriated.

The bureau recommends the immediate construction of experimental works to cost \$60,000, and their use in the determination of the resistance and other qualities of ships. The plan of model, having the tanks will be of permanent value in designing high speed vessels, and analyzing the results of ships' trials.

The report states that the old sloop of war, Hartford, can be repaired for \$175,000, and would be valuable for service as a cruiser for several years. He adds that her past record, as Admiral Farragut's flagship, she only endears her to the people, but when she has outlived her usefulness as a cruiser she should be preserved as a receiving ship, as a monument of her past achievements.

"Tools are now being delivered to the New York and Norfolk yards," the chief constructor says. "We soon shall be in possession of two yards well equipped for building steel and iron vessels of every size and type." Of the Mare Island yard he says that being the only one on the Pacific Coast, it is now being filled with a complete outfit of modern ship-building tools. The climate is such that the practice is perfectly practicable to conduct ship-building without the shelter of ship-houses, which are expensive both in first cost and repairs.

THE NAVAL ACADEMY. In his annual report Commander Sampson, superintendent of the United States Naval Academy, says that at the close of the academic year there were 191 cadets at the academy. The total number now at the academy is 237. During the year one cadet was dismissed for bad conduct, and 13 of the third class were tried for hazing. Of the fourth-class men on board the practice ship, nine were recommended for dismissal by the court, but pardoned by the President. Every effort will be made to wipe out this objectionable practice, and with this object in view all class organizations, either in the third or fourth classes, will be forbidden.

GRANT'S PASS (Or.), Nov. 16.—John Portes, late of Oroville, Cal., who was located near here, was found dead in his cabin, lying with his face and hands in the fireplace, the flesh being considerably burned off. An inquest was held and a verdict of death from natural causes was returned.

An Old Pioneer's Death. LAGRANDE (Or.), Nov. 16.—John Wells, a pioneer of this city, was bringing a load of wood down the mountain today with a four-horse team. The road being frozen the wagon slipped off the grade, turning over and injuring Wells so that he died in about an hour.

Fractured His Skull. VIRGINIA CITY (Nev.), Nov. 16.—Capt. Harry Symonds was thrown from a buckboard, near the Justice mine, last evening, while turning a bend in the road with a runaway team. His skull was fractured, and he received other injuries, which proved fatal this morning.

Death of Noah Webster's Daughter. BRIDGEPORT (Ct.), Nov. 16.—Eliza Webster-Jones, widow of the late Rev. Henry Jones and daughter of Noah Webster, died this morning, aged 85 years.

AN ENGLISH LADY. Miss Sackville-West Did Not Snub Mrs. Cleveland.

WASHINGTON, Nov. 12.—The story that is going the rounds about Miss Sackville-West snubbing Mrs. Cleveland last week was authoritatively denied at the legation today. The episode is said to have occurred the day after election. Miss Sackville-West, accompanied by a member of the legation, was in a jeweler's shop on Pennsylvania avenue. While she examined some articles put upon the counter for her inspection, a lady entered the door, to whom the gentleman gave a low bow. "To whom do you speak?" asked Miss Sackville-West. "It is Mrs. Cleveland," whispered the diplomat. Miss Sackville-West turned around and saw a lady standing at the opposite counter, with her back toward her. "I am sorry," said Miss Sackville-West, "that I did not see her face to face, as I should like to have spoken to her very kindly, because her husband has been defeated."

## LETTERS TO THE TIMES.

The Coming Municipal Contest. VIEWS OF CITIZENS ON THE PROPOSED "CITIZENS' MOVEMENT."

LOS ANGELES, Nov. 13.—[To the Editor of THE TIMES.] After reading an editorial this morning in THE TIMES, headed, "The Next Battle," I wish to say that I agree in the main with the ideas of the article, but would here state that my platform would be \$1000 a year for each saloon, payable in advance, and the closing of the saloons at a not later hour than 12 at night; for my experience teaches me that most of the desperate crimes are committed between midnight and morning. Furthermore, I would insist that the saloons should be closed at 12 o'clock on Saturday night, not to be reopened until Monday morning. The penalty for the violation of said ordinance should be a heavy fine and the revoking of the license. I will be voting as nearly as I can in accordance with the above sentiments.

## An Open Letter.

To J. P. Widney, Eli Fay, A. M. Hough, E. W. Spencer, Mr. Dorian, H. C. Witmer, Miss R. Dunham and Mrs. L. D. More, Executive Committee of the Citizens' Reform Movement: I have just read the published declaration of principles and purposes of your organization, and also your intention to put a ticket in the field at the approaching municipal election.

Ladies and gentlemen, you are making a mistake. If you want clean, honest and honorable men put into public office, your influence must be exerted inside the Republican ranks if you desire success. We need and are entitled to your best influence and support. Independent action means defeat.

Experience has demonstrated the fact right here that such action as your organization proposes will result in the election of such men to public office as those of whom you are now so justly complaining.

Unquestionably there are cleaner men and more of them in the ranks of the Republican party than there are outside of it. You all are, or ought to be, Republicans; and, viewing the political field in this light, the light of the election just closed, there must be a unanimity of action in order to elect the class of men you and I so much desire.

In conclusion, I respectfully entreat you to abandon your intention of independent action, and to put your shoulders with ours to the wheel that shall roll into power such wreath of men as will give us a good, clean and efficient city government. Yours very respectfully,

CHARLES J. FOX.

## Street-grading Assessments.

LOS ANGELES, Nov. 13.—[To the Editor of THE TIMES.] A few moments since the City Attorney rendered an opinion to the Council relative to street-grading assessments.

He stated that whenever the street assessment exceeded one-half of the last assessed value of the property on the proposed graded street, the extra expense must be borne by the city, provided, however, the property-owners interested might waive that right and relieve the city of any liability in the matter.

That gave the property-owner a right to speak for himself.

Now, the City Attorney states that it is not necessary to obtain the waiver from the property-owners, but that the signing of the waiver by the contractors is sufficient.

This is what I should call playing into the hands of the contractors. However, the taxpayers and property-owners of the city will have a chance next month to express their opinion on this matter. And it is their duty to elect men who will look after the interest of the property-owners, and not the contractors.

TAXPAYER. [Our correspondent is in error as to the advice given by the City Attorney. That officer did not advise that the contractor can waive any rights of property-owners. But the contractor can waive his claim against the city, and then he must take his chances with property-owners, with all rights guaranteed them under the Contract Law. It frequently happens that property-owners along an outside street agree to bear all the expenses of an improvement, irrespective of exemptions, but there may be two or three absentees who cannot be reached to obtain their consent. In such case the contractor waives any claim against the city and the work is proceeded with. If the absent property-owners do not choose to pay more than the limit prescribed by law they need not do so, and the discrepancy is a loss to the contractor. This is the situation as explained to a Times representative yesterday by Assistant City Attorney Dunn.—Ed. TIMES.]

THE SOLID SOUTH. LOS ANGELES, Nov. 13.—[To the Editor of THE TIMES.] A leading Democratic politician of South Carolina is reported in this morning's papers as saying that if the Republicans would give the South the assurance that they would leave her alone to manage her own State affairs, etc., the people of that section would break up the solid South. In parallel columns with this outgiving is a detailed account of how a northern man was treated, including threats of his life, in the State of North Carolina, and how he and his family were driven out of the State. Now, however desirable to liberty-loving Republicans, the dissolution of the political combination known as the Democratic Solid South may be, they are not yet ready to enter into pledges guaranteeing to any section or rod of this country the right to murder for political reasons, or to run off for no crime, any citizen, be he black or white, or northern or southern born. So long as American citizens of whatever color, or wherever born, cannot go or stay, or say his say, or vote and have his vote fairly counted, in any and every State of our common country, the Republican party will not voluntarily close its mouth or bar its eyes to protest or tie its hands to even when the mere outward conversion to Republicanism of the entire solid South.

## OUR NEIGHBORS.

## Palm-leaflets.

THE PALMS, Nov. 13.—[Correspondence of THE TIMES.] What New York is to the continent, or what Chicago is to the Mississippi Valley, Los Angeles is to the imperial stretch of territory known as Southern California; the wondrous, the orangeland, the flowerland, the climateland of America—a land possessing an aspect inexplicably different from that of its sister States; its skies, its streams, its rivers, its farms, its flora, its fauna, all are peculiarly its own. We are proud of its matchless growth and enterprise.

We are proud of our suburban home—The Palms—knowing that it is a contingent of this metropolis. We are so

handy that THE TIMES does not get fairly cool before the carrier brings it into our doorways. Twenty minutes by the Southern Pacific and the resident of the tourist is put down at the depot, and he will certainly admit that in all of its detail of mountain, hill and prairie, the eye takes in a landscape that is attractive from an artistic and picturesque point of view. When the stranger comes to walk through these broad, level, tree-lined avenues; in the midst of these elegant homes; to gather up the evidence of an unequalled soil, in the fact that all these beautiful trees, already casting a grateful shade, were bits of slips 18 months ago, and have had only heaven's irrigation, to test the water, splendid to the taste; to examine the large and handsome school building, in which several scores of graded scholars gather daily; to look after our church privileges, he will, we think, admit that the contrast between things of two years ago, when this was a farm field, and the things of today is a splendid illustration, both of the native value of the country and an exemplification of the push and pluck and genuine American enterprise of modern times. Certainly nowhere else has Nature more lavishly combined the elements of beauty and utility, and left so little for man to complete in order to realize his ideal of an abiding place. That people should search further can only be ascribed to that impelling and unappeasable rage for going somewhere else.

The Palms is a place of homes. It has had a wholesome, healthy growth. Men do not come here in a reckless search for fortune, but to establish themselves permanently, and bring with them civilization in its best forms.

During the last few weeks a pervasive religious interest has been manifested under the preaching and lay work of Rev. U. S. Munger of the United Brethren Church. A number of accessions to the church have resulted.

A few weeks ago the First Baptist Church was duly organized and Rev. C. B. Carlin has been ordained and regularly installed as pastor. The Baptists are using the large hall in the graded school building, but will build a house of worship within the next few months; the subscriptions for the same are now being taken. Taken all together, THE PALMS is an attractive place to those who desire the quiet and restfulness of the country, yet a life of business and association in the city.

 Sterling exchange, dull but firm at 4 1/2% for 60-day bills, 4 1/2% for demand.  
**New York, Nov. 16.**—The stock market was weak at the opening under the influence of heavy selling of Union Pacific and Lake Shore by London houses and cables from London reporting declines in the rest of the list, which had a depressing effect. Trunk line stocks were especially weak. Selling orders were soon exhausted, however, and, after the first hour, the market showed considerable strength, and the early losses were rapidly recovered. The volume of business was comparatively small, however.

Government bonds, dull and steady.
